Val,

I just want you to know how much I appreciate everything that you have done for me these last few years. I definitly would be in a worse place if not for all your help. Not only were you willing to give me a break when you thought I could pick myself back up, but you also knew when you needed to step in and put your foot down as well. Even though we will no longer have a professional relationship, you will always be a part of mine and my familys life.

Gratefully,
Kayla
